

Betrace

Betrace Curl

The Betrace Curl combines the familiarity and ease of use of an automatic vending machine with the security required to manage and track nominative drug supply and dispensing.

Betrace

Equipped with six trays and system of eight motorized spirals per tray, the Curl also features a receiving drawer padded with captors to detect product arrivals. With its two temperature zones, Betrace Cool is perfect for specialized products, such as rapidly perishable, syringed and dangerous products, as well as high-cost or widely used medical products.

- Equipped with a modular spiral system configured to the products to be dispensed
- Stand-alone operation or as a unit with Betrace Max
- Optimal management of expiry dates through back entry restocking (FIFO)
- Integrated solution for high traffic units such as ERs, ICUs, dialysis units
- Total or partial refrigeration
- Electronic user identification access and physical locking.

Betrace Curl features

- 6 trays with 8 spirals on each tray
- Spirals can hold formats from 2 - 65 mm
- Up to 56 spirals per cabinet
- Electronic refrigeration (+5°C)
- 2 separated temperature sections
- Padded product arrival drawer with movement detectors
- Anti-shock reinforced glass door (15mm)

Product specifications

Dimensions HxWxD (mm) - weight	1885 x 1100 x 6500 – 125kg
Voltage	230 5V-4A / 25V-5A / 12V-3A
Frequency (Hz)	50
Energy Consumption (Kwh/24h)	150
