

Bettrace

Bettrace Max

The full-size Bettrace Max cabinet provides secure storage and dispensing for medical products requiring reliable and nominative delivery to patients.

Betrace

Betrace Max is perfectly adapted for secure dispensing in your high-technology medical environments.

Equipped the revolutionary Betrace Electronic Drug Detection (EDD) system, Betrace Max offers high-security single unit drug traceability.

- Sized for emergency services, intensive care units or medium care units
- Modular and extendable capacity with the addition of complementary units
- Equipped with secure return tray for products managed without captors
- Mounted on wheels for maximum mobility and easy maintenance

Betrace Max features

- 6 drawers that can be configured with EDD captors for phials and/or bottles and boxes
- Captor clips can detect different medicine types, such as syringes
- Up to 180 individual phial units per cabinet
- Up to 64 individual bottle/box units per cabinet
- Phial captors can be adapted to detect formats from 5-25 mm in diameter
- Bottle/box captors can be adapted to detect formats from 25-100 mm in diameter
- Bar code scanner (upgrade possible)
- Biometric reader
- 1 secure return tray in the upper part of the cabinet

Product specifications

Dimensions HxWxD (mm) - weight	1885 x 825 x 675 - 125kg
Voltage	230 5V-4A / 25V-5A / 12V-3A
Frequency (Hz)	50
Energy Consumption (Kwh/24h)	110
Connectivity	3 x USB 2.0 2 x Ethernet RJ45 UTP 4 x RS232C Compatible with: INFOHOS, MEDSOC, AEXIS, MEXYS, PHARMA...
